In Style Apparel

Our focus and mission since 2003, has been to offer a vast selection of product options, colours, and fabrics while providing expert guidance in sourcing bespoke garments.

When it started, it was just one brand **BeSeen Clothing**. The collection was small and grew quickly. The tag line was ***BeSeen, Be Noticed and Be Different.***

As time passed uniforms from Be Seen Clothing and Custom orders were worn as School uniforms, as team wear, in board rooms, at community events, in fitness centres, and at construction job sites.

In working with distributors across the country, we found niches in the market that helped new brands emerge with the sole purpose of expanding the mission and staying true to our principles. We now have Five Brands to help companies, brands, students, teams, and individuals to ***BeSeen and Be Noticed*** as we continue to ***Be Different.*** In Style Apparel offers our distributors multiple solutions to help those they uniform have confidence in the quality of the product purchased.

The 2023 Catalogue Celebrates the 20th Year Anniversary of the company and the distinctions between the five brands.

20+ YEARS IN BUSINESS

Expansion from One Brand to Five Brands

- February 2003 **BeSeen Clothing** is launched! Including the release of the historic BSP15 in 4 colourways.
- February 2005 The expansion begins - still need family and friends to be in the catalogue.
- June 2006 In Style Apparel moves to a larger premise - 5 times larger than first warehouse!
- September 2007 In Style Apparel screen prints 25,000 t-shirts for Kevin Rudd (Kevin 07 campaign before the 2007 Australian Federal Election).
- August 2008 In Style Apparel provides Papua New Guinea athletes uniforms for 2008 Summer Beijing Olympics
- August 2010 In Style Apparel needs second warehouse to be able to hold more stock for its ever increasing stock service range.
- March 2014 **BK Sublimation** services are added.
- August 2018 In Style Apparel moves to a larger premise, again!
- September 2018 Introduces new brand: **Black Kanvas - Premium Heather Collection**
- May 2020 **BKKS** Retail streetwear brand goes live.
- December 2020 **Safety First Workwear** Brand becomes available for sale.
- March 2022 **BKKS Activewear** hits the market!
- August 2022 BKKS Streetwear has its first Retail Pop Up Store in The District Docklands in Melbourne.
- February 2023 In Style Apparel celebrates 20th Anniversary and launches new collections across multiple brands

Sizing Guide

The hard work behind the scenes to make sure that the new apparel meets the brief can be reduced with a few easy steps that are listed below. Although majority of the stock range is used using the same size chart, please check each style individually to ensure the perfect fit.

Tips to ensure the size is right:

Place a similar garment/ past uniform on the table with front facing up.

Make sure the garment is laying flat on the table.

Ensure the measuring tape is straight.

Compare the measurement of the owned garment to the size chart.

For tops and hoodies/jackets, please make sure the half chest measurement is measured from 2cm below the armhole, and its from armhole to armhole.

CLOTHING

February 2003 **BeSeen Clothing** is launched!

A place in history and Journey into the Future

BeSeen Clothing was the first brand released back in 2003. The drive at the time, was to offer a stock service range with variety and quality. The fabric selection and colour ways were what launched the brand into the market.

The range, clearly stood out in the market because of the use of **COOLDRY TECHNOLOGY**. The yarn treated fabric brings a long-lasting moisture-wicking effect while chemically treated fabrics lose effectiveness with every wash. This function assures that the uniform selected can be worn with confidence that the garment, when cared for, will outlast cheaper imitations.

Looking towards to the future, the goal for many is to make better choices for the Planet. The choice in using Cooldry fabrics help to reduce expenditure, based on the extended life span of the garment.

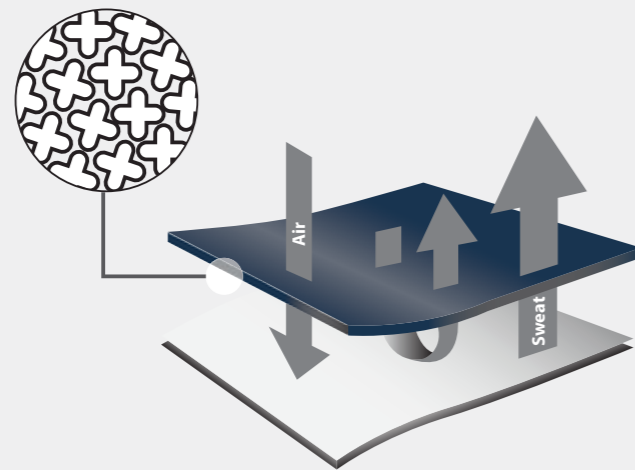

Taking it a step further – Our New Releases to the BeSeen Clothing range, have an added step in helping to **protect the earth**.

The process involves knitting two different yarns together to make the fabric. One being 100% reclaimed products to create the polyester fibre & the other our traditional Cooldry Yarn. This assures our standard, of quality fabrics used in our brands and sustainable option for the environment.

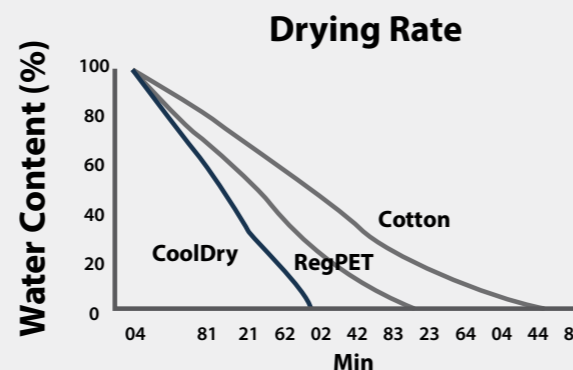

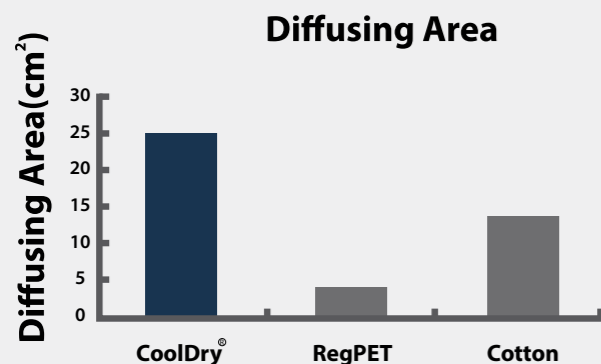

What is Cooldry Technology?

BeSeen stock garments are specially designed with Cooldry Moisture Management Technology. This process starts at the beginning of the fabric production stage. The raw yarn used in the knitting process contains the Cooldry technology, which ensures that it never washes out. The treatment pulls the moisture away from your skin to the outer layer on the garment, therefore making our garments breathable, quick drying, comfortable and moisture absorbent.

Cooldry Technology - How it stands out from the rest

- Infused in yarn means it won't wash out
- Draws moisture away from the body
- Breathable Fabric
- Fast Drying

**Global Recycled
Standard**

**What does it mean to Meet Global
Recycled Standards?**

The Global Recycled Standards (GRS) set the criteria for third-party certification of recycled materials and chain of custody. The GRS included a higher (50%) minimum recycled content percentage and additional social and environmental requirements related to processing and chemical use. The BeSeen product exceeds the minimum 50% requirement outlined by the Global Recycle Standards.

NEW

Features:

Recycled Fibres (Meets Global Recycled Standards)
Cooldry Moisture Management Technology in Yarn
1x Loose pocket in body colour
Regular fit

Additional Options:

Change of Label

BLACK | KANVAS

September 2018

Introduces new brand: **Black Kanvas - Premium Heather Collection**

BLACK KANVAS

BLACK KANVAS

With the experience and knowledge of the market, it was noted that standard uniforms were lacking that luxury feel. Fabrics used in this range are what is expected from leading sportswear brands in the world.

The superior fabrics with a soft touch feel, continue to have the quality expected from In Style Apparel. The fabrics used are all treated with the

***AEGIS MICROBE SHIELD
(ANTI-BACTERIAL TREATMENT)***

and mixed with our interlock fabric with

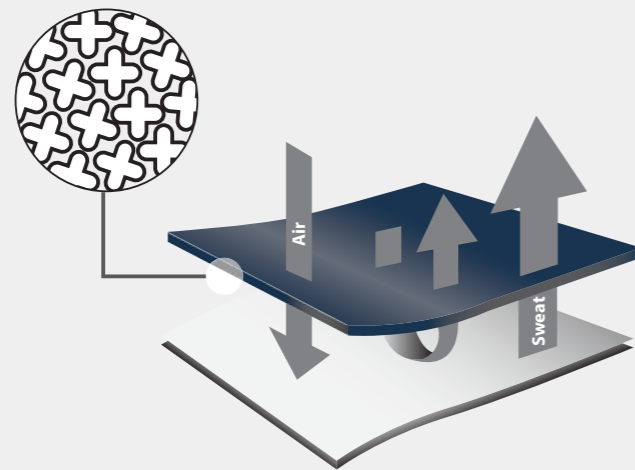

Cooldry Technology.

The garments are ready for extended wear. The detail in construction and accents add the flare for the wearer to ***Be Noticed.***

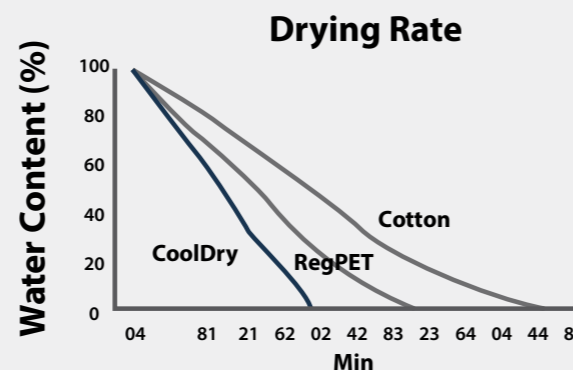

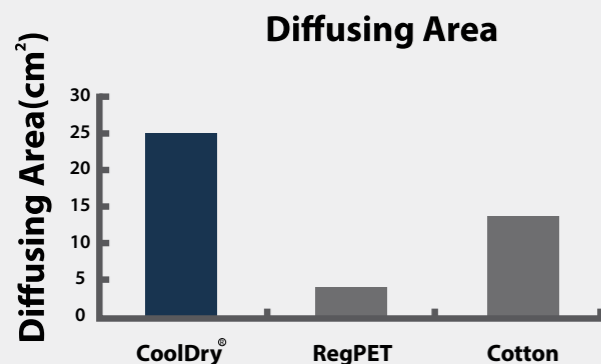

What is Cooldry Technology?

All Black Kanvas stock garments are specially designed with Cooldry Moisture Management Technology. This process starts at the beginning of the fabric production stage. The raw yarn used in the knitting process contains the Cooldry technology, which ensures that it never washes out. The treatment pulls the moisture away from your skin to the outer layer on the garment, therefore making our garments breathable, quick drying, comfortable and moisture absorbent.

Cooldry Technology - How it stands out from the rest

- Infused in yarn means it won't wash out
- Draws moisture away from the body
- Breathable Fabric
- Fast Drying

Untreated Fibre VS Treated Fibres

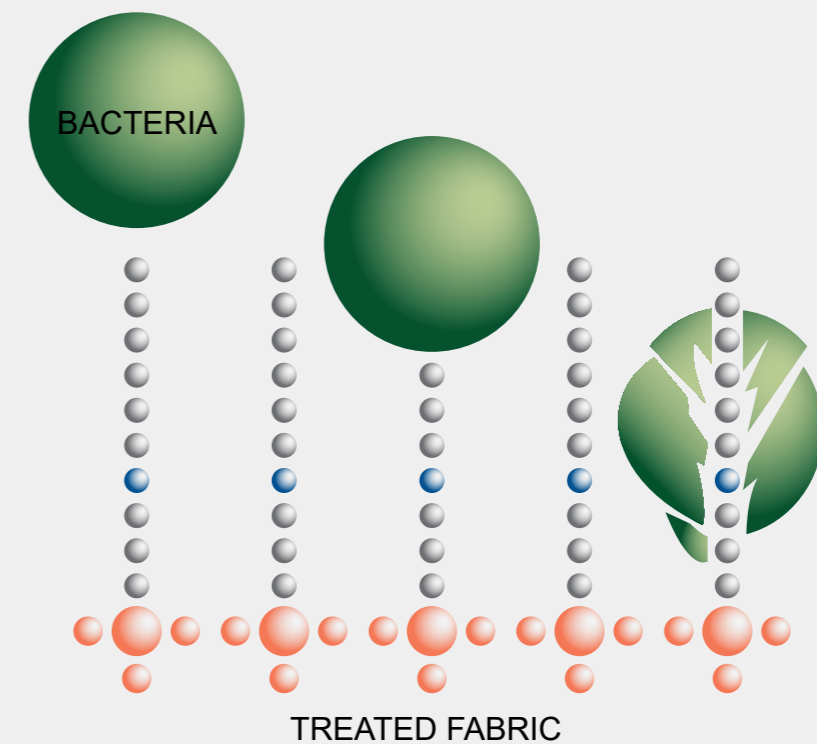

Untreated Fibre

Treated Fibre

What is AEGIS Microbe Shield?

AEGIS Microbe Shield is a high-tech treatment creating a protective coating around the yarn. This colourless, odourless process results in a positively charged polymer that draws bacteria towards the polymer. The bacteria comes to the surface of the fabric and is quickly destroyed. The AEGIS Microbe Shield paired with the Coolsdry Technology benefits result in a high-end garment with long-term stability and durability of the garment.

BKKS

March 2022 **BKKS** hits the market!

Like everyone, the shock of the Covid Pandemic forced the step to evaluate our mission and start thinking about our next steps to Be Different and Be Noticed when traditional uniforms were not enough to keep moving forward. BKKS is about taking life in stride. It was a time to take stock of company success in the seeming bland world of uniforms.

To look at what can be next and new. BKKS offers a selection of easy to wear apparel, to style with staple pieces and fun fashion.

Our mission is to **B**elieve enough in yourself to **K**now who you want to be. Use your **K**nowledge and every bit of your **S**trength to be the best you.

BKKS is our way to have fun, to continue to expand and to Do the Different again.

In Style Apparel launch of BKKS is complex as our key focus was to support our distributors in something new, finding more ways to connect with on-sellers in fashion and emerging start-ups.

Outlined are styles with stock held in Australia and stock held in China. Ready for branding or decoration.

As this range is regularly updating and growing, it is highly recommended to view the website for the most up to date information.

**Styles that meet
Global Recycle Standards**

BKKSHD55

What does it mean to Meet Global Recycled Standards?

The Global Recycled Standards (GRS) set the criteria for third-party certification of recycled materials and chain of custody. The GRS included a higher (50%) minimum recycled content percentage and additional social and environmental requirements related to processing and chemical use. The BeSeen product exceeds the minimum 50% requirement outlined by the Global Recycle Standards.

March 2014 **BK Sublimation** services are added.

The ultimate way to **Be Noticed** and **Be Different** is using BK Sublimation Services.

A concept that can be imagined can come to life on garments, bags, towels, socks and yes, even on underwear!

To put the unimaginable into a few pages is an impossible feat. Use the following as a guide to consider how to use 43 fabrics to create the products that help to create the standout concept for a brand or provide confidence to that young team desperate for a win.

Please see the process and quality outlines to be assured the production and delivery for the next Bespoke order.

Process and Quality Control once order has been officially placed with In Style Apparel.

- 1** In Style Apparel team double checks order and then places the order with the factory.
- 2** Print Sample of the design is printed on chosen fabric. For new orders, the photos are emailed for approval. For repeat orders, the order is sent to production.
- 3** Once production is finished, order is packed and shipped to In Style Apparel's Sydney Warehouse.
- 4** When In Style Apparel receives the order, we unpack, double check the order is correct, and dispatch to confirmed shipping address.

COLOURS MUST BE CHOSEN WITH PHYSICAL COLOUR CHART

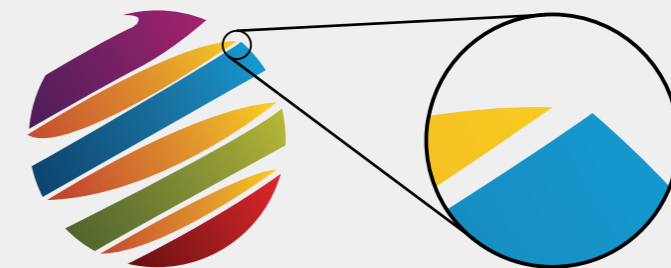

To have the best quality sublimation, it is very important to provide the correct file formats so the quality of the print is clear.

Correct File Formats:
Vector
Very High Quality JPG (300 DPI at full scale)

Incorrect File Format:

Correct File Format:

BK Sublimation prides itself on providing high quality garments. If artwork provided is not high enough quality, the BK Sublimation team will request for correct file format before placing the order with the factory. Additional approval steps may need to take place if there is concerns for artwork. This may result in the order being delayed.

Wanting to add a little extra to your design?
A great way to add more excitement to your design is with a pattern fill. It can be added to any part of your chosen style, and is still completely customisable.

PATTERN FILL STEPS

- STEP 1 - PICK THE GARMENT STYLES
- STEP 2 - PICK A PATTERN FILL
- STEP 3 - CHOOSE THE COLOURS
- STEP 4 - DECIDE WHERE THE PATTERN FILL WILL GO
- STEP 5 - BE PRESENTED WITH A MOCKUP

BESEEN CUSTOM

February 2003

BeSeen Clothing is launched!

No company or brand wants to look just like the next or even thought to be similar. The need to differentiate requires that extra step in branded and logoed custom garments. With the wide range of fabrics and colours available, the possibility to stand out above all the rest is possible in mere weeks through Be Seen Custom. Review the fabrics, their suggested uses, and stock colours available to find something unique and custom made. The following are concepts showing the available colour ways and to help meet the tightest deadlines and reduce impact of custom productions of fabric in small batches on the environment.

There are a range of options for decoration from patches, embroidery, digital transfers and Screenprinting available dependent on order size.

The following pages are not conclusive, they are snippet of what can be produced. Be Seen Custom follows the mission to Be Different so ask about that wild and wacky idea, it might have been done or it is known where to get it.

It costs nothing to ask.

Process and Quality Control once order has been officially placed with In Style Apparel.

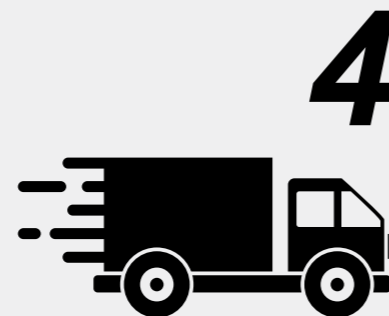

In Style Apparel team double checks order and then places the order with the factory.

Print Images of decoration will be supplied if required. For new orders, the photos are emailed for approval. For repeat orders, the order is sent to production.

Once production is finished, order is packed and shipped to In Style Apparel's Sydney Warehouse.

When In Style Apparel receives the order, we unpack, double check the order is correct, and dispatch to confirmed shipping address.
