

THE NEW LINEUP.

We'll cut right to the chase. These are our brand spanking new K9 boots. They're good. Really good. So good, in fact, you'll want to wear them all day, every day. But since they don't have a steel toe cap, you should probably reserve them for wearing off the clock. Which is great, because now taking off your work boots doesn't have to mean giving up your Mongrels.
